SUBJECT : Disinfection equipment

Dear customer,

In order to help fighting against coronavirus and to decontaminate your spaces before deconfining, we propose « made in France » equipment : simples, performant and on stock.

We propose 3 solutions :

Steam cleaner : Steam at 140° desinfects all types of supports : door handles, banisters, walls, furniture, washrooms, floors but also vehicules. No need of disinfectant, steam eliminates bacterias and viruses.

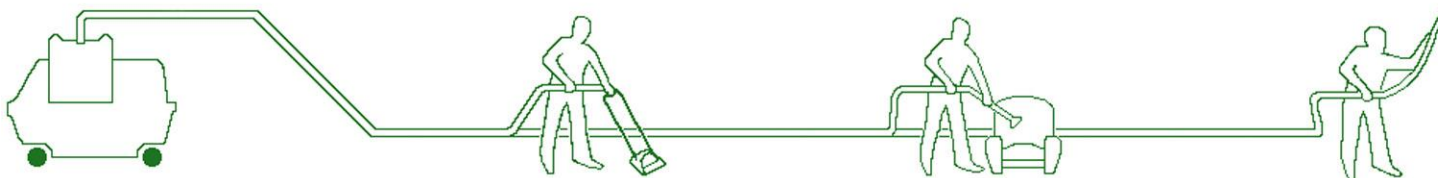

Sprayer : thanks to a powerfuk spray, it diffuses the decontaminant product on all surfaces.

Mist generator : enable to disinfect an area up to 500 m3 in 30 min, the disinfectant is misted and spreads in every corner (example : decontamination of patient rooms, trains, busses, aircrafts).

These equipments are easy to use and a tutorial is even on line. Our equipment is has a 2 years warranty. If needed, we can also propose adapted disinfectant products.

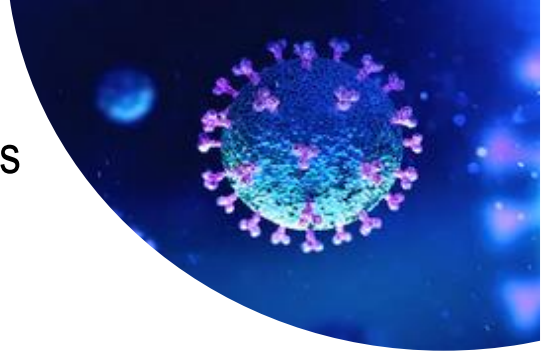

Our team stays at your disposal to assist, you can contact :
Florence DONVAL : fdonval@eurosteam.fr / 06 76 53 22 53

Sincerely
Jean-Claude CHASTANT
President.

To decontaminate your spaces and vehicles

EUROSTEAM proposes a special selection of
anti-coronavirus equipment

STEAM CLEANER 10 L

No need for detergent, steam at 140° eliminates covid-19. With this steam cleaner, you disinfect all surfaces : door handles, walls glasses, banisters, furniture, washrooms, floors. The steam mop (in option) facilitates floor cleaning.

BACK PACK SPRAYER 11 L PORTABLE SPRAYER 5 L

Battery sprayers with 20 min autonomy are an ideal solution to decontaminate your surfaces from Covid-19 thanks to a disinfectant. The portable model exists in cable version.

MIST GENERATOR FOR BOTTLE 1 L

Very easy to use, this mist generator disinfects areas up to 500 M3. The disinfectant is misted and can go in every corner. In 30 min clear your space from Covid-19.
